

UML Deliverable 3- Akachukwu Joshua Ekwueme & William Tran-Viet

Assumptions:

- Assuming that for you to be a tutor, you must have at least one topic in your profile.
- Assumed that the maxnumber of offered topics is controlled by an int variable in “Topic”, which will be initialized to 5.

Note: the method under Administrator “actionComplaint” should be “actionComplaint(complaintID,action):Boolean”, but UMPLE didn’t allow this entry.
